

3M0-211 3Com Certification 3COM Certified Enterprise LAN Specialist

Practice Exam: 3M0-211 Exams

Exam Number/Code: 3M0-211

Exam Name: Certified Enterprise LAN Specialist

Questions and Answers: 50 Q&As

([3Com Certification](#))

Exam : [3M0-211](#)

"Certified Enterprise LAN Specialist", also known as 3M0-211 exam, is a 3COM certification. With the complete collection of questions and answers, TestInside has assembled to take you through 50 Q&As to your 3M0-211 Exam preparation. In the 3M0-211 exam resources, you will cover every field and category in 3COM Certification helping to ready you for your successful 3COM Certification.

Quality and Value for the 3M0-211 Exam TestInside Practice Exams for 3COM **3Com Certification** Certification 3M0-211 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 3M0-211 Exam.

3M0-211 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the 3Com Certification product experts, included the current newest 3M0-211 examination questions.

3. 100% Guarantee to Pass Your 3Com Certification exam and get your 3Com Certification Certification.

If you do not pass the 3COM Certification 3M0-211 exam (Certified Enterprise LAN Specialist) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside 3M0-211 Q&A ensure you pass the exam at your first try.

TestInside professional provide 3Com Certification 3M0-211 the newest Q&A, completely covers 3M0-211 test original topic. With our complete 3Com Certification resources, you will minimize your 3Com Certification cost and be ready to pass your 3M0-211 tests on Your First Try, 100% Money Back Guarantee included!

[3COM 3M0-211](#) Test belongs to one of the 3Com Certification certified test, if needs to obtain the 3Com Certification certificate, you also need to participate in other related test, the details you may visit the [3Com Certification](#) certified topic, in there, you will see all related 3Com Certification certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about 3M0-211 exam

3M0-211 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

3M0-211 exam questions updated on regular basis

Same type as the certification exams, 3M0-211 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 3M0-211 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo does not include the question's picture.

Exam : 3COM 3M0-211

Title : Certified Enterprise LAN Specialist

1. The Switch 5500 allows VLANs to be automatically assigned based on user credentials or on the MAC address of the device.

- A. True
- B. False

Answer: A

2. Which Layer 3 protocol is supported on the Switch 5500-SI?

- A. RIP 2
- B. OSPF
- C. VRRP
- D. PIM Dense Mode

Answer: A

3. What is the security benefit obtained when the Switch 5500 is integrated with Tipping Point IPS?

- A. Prevents unauthorized users from logging onto the network
- B. Illegal activity or infected machine can be automatically isolated or blocked
- C. Automatically works with IEEE 802.1X Network Login and switch ACLs to determine user authorization and access authority

Answer: B

4. Using 3Com's XRN technology, you can mix Switch 5500-SI and Switch 5500-EI model switches to create a single switch stack.

- A. True
- B. False

Answer: B

5. Which three features are only supported on the Switch 5500G-EI switch models? (Choose three.)

- A. Port-based VLANs
- B. 24 or 48 10/100/1000 Mbps ports
- C. PoE upgradeable power supply unit
- D. Hot-swappable Application Module Slot
- E. Four GBIC Small Form-factor Plug-in (SFP) ports

Answer: BCD

6. What is a purpose of the Switch 5500 automatic VLAN and QoS assignment?

- A. Preconfigures the port with the VLAN and QoS configurations
- B. Always applies the administrative configuration to the port at login
- C. VLAN and QoS profile are supplied by the RADIUS server when a user logs on
- D. Dynamically creates a new VLAN using RADIUS Authentication of Device Access (RADA) specifications

Answer: C

7. Which two are Quality of Service (QoS) features of the Switch 5500 family? (Choose two.)

- A. Configurable queue processing
- B. Eight hardware queues per port
- C. Eight hardware queues per switch

D. Queue priority is based only on First In First Out (FIFO) algorithm

Answer: AB

8. Which two are Layer 2 features of the Switch 5500 family? (Choose two.)

- A. Rapid Spanning Tree Protocol (RSTP)
- B. User definable MAC table aging period
- C. Multiple Spanning Tree Protocol (MSTP)
- D. GARP Multicast Registration Protocol (GMRP)

Answer: AB

9. The Switch 5500 supports Simple Network Management Protocol (SNMP) V1, V2 and V3.

- A. True
- B. False

Answer: A

10. Which two are Layer 3 features of the Switch 5500-EI and 5500G-EI? (Choose two.)

- A. Dynamic IPX routing
- B. Virtual Router Redundancy Protocol (VRRP)
- C. Multicast routing PIM Sparse and Dense Mode
- D. Static routes for routed environments where no routing protocol is used

Answer: CD

11. Which two are benefits of the Switch 5500 XRN Distributed Device Management (DDM) support? (Choose two.)

- A. Supports up to 12 switches in a single stack
- B. Creates a 12 Gbps full-duplex link between switches
- C. All switches within a stack act as a single logical device
- D. Resilient XRN architecture provides management access if any switch fails in a stack

Answer: CD

12. The Switch 5500 RADIUS Authentication of Device Access (RADA) is designed to authenticate users based on MAC address without the requirement for IEEE 802.1X client on the attached devices.

- A. True
- B. False

Answer: A

13. Which Switch 5500 model(s) supports a 96 Gbps full-duplex XRN stacking connection?

- A. Switch 5500-SI
- B. Switch 5500-EI
- C. Switch 5500G-EI
- D. All of the above

Answer: C

14. The Switch 5500 supports multiple runtime and configuration files in its flash file system.

- A. True
- B. False

Answer: A
